TECHNICAL MEMORANDUM

Date:	November 16, 2009
To:	City of Black Diamond
From:	Susan Graham
Subject:	Black Diamond EIS Lawson Hills MPD Technical Peer Review EIS Element: **Air Quality**
cc:	Project File
Project Number:	217-3043-003
Project Name:	Lawson Hills and The Villages MPD EIS

EIS ELEMENT: Natural Environment - Air

Original Documentation Prepared by: ENVIRON on: 11/20/2009

PMX Peer Review Author: Susan Graham

PEER REVIEW COMMENT SUMMARY

This is to confirm receipt of additional technical materials regarding the Lawson Hills and Villages MPD EIS documents.

The November 20th memo does not contain new information – it merely clarifies the earlier submissions of tabular data regarding cumulative air quality impacts, and points out a level of detail that was omitted from the EIS, due to its "reader friendly" style that summarized the technical data.

Parametrix is adding this new memorandum to the project files for clarification purposes and for use in response to comments.
