Attachments: Ordinance; Exhibit A – Amendments to BDMC Chapters 18.50, Accessory Uses and Structures, and 18.56, Accessory Dwelling Units		
SUMMARY STATEMENT: BDMC 18.50 recognizes and provides standards for Accessory Uses and Structure, which are defined as activities and structures that are subordinate and incidental to the principle use of the land or buildings. BDMC 18.56 provides standards for Accessory Dwelling Units (ADUs), which are defined as separate and completely independent dwelling units on lots already occupied by a single-family detached dwelling. BDMC 18.30 and 18.32 are the chapters that regulate the city’s residential zoning districts and include provisions for Accessory Uses and Structures and ADUs. After working with the existing provisions of these code chapters for several years, staff has identified several issues and concerns that needed to be addressed along with some provisions that needed clarifying or amending. These include things like making the height limitation on such structures the same for everyone, regardless of the height of their existing residence and reducing obstacles for building ADUs; specifically increasing the size limit from 800 sq. ft. to 1000 sq. ft. and allowing more than one ADU on a single lot. The Planning Commission worked with staff on the proposed code amendments, held a public hearing on January 8, 2019 and forwarded its recommended amendments to Council for consideration. Council has held two work sessions to discuss the Planning Commission recommendations and will now hear public testimony during a duly noticed public hearing on March 7, 2019 and continued until March 21, 2019. After which, Council may further deliberate on the proposed amendments and testimony prior to taking action. FISCAL NOTE (Finance Department): N/A		
COUNCIL COMMITTEE REVIEW AND RECOMMENDATION:		

RECOMMENDED ACTION: **Deliberate on proposed amendments following the close of the public hearing and take action tonight or postpone taking action until the April 4, 2019 meeting.**
