A variance may be granted by the Hearing Examiner if it can be shown that special physical circumstances affect a specific property in a manner which would make the strict application of zoning regulation unduly burdensome and would deprive the property of rights and privileges enjoyed by other properties in the same vicinity or zoning district.

*A variance may be granted only for physical or dimensional circumstances. In no event may a variance allow a use not permitted in zoning district in which the property is located.

*That a property may be used more profitably shall not be a consideration in any review of a variance application.

**Submittal Requirements:**

  c. Explain the special circumstances relating to the size, shape, topography, location or surroundings of the subject property, which necessitate a variance in order to provide it with use rights and privileges permitted to other properties in the vicinity and district in which subject property is located.
