## ROBERTS DRIVE ROADWAY IMPROVEMENTS November 1, 2017 Update

The work on Roberts Drive is just about complete. The only remaining item is the installation of pedestrian lights, which is just delayed due to a backlog with the manufacturer. We anticipate these being installed in mid-November. Lane closures will be necessary when these lights are installed (probably 2 days).

We thank everyone for your patience with this project as these improvements were installed. This project has created sidewalks and the new overlay creates a smoother ride and a quieter road. Below are some pictures of the project.

This project is funded through three grants obtained by the Black Diamond Public Works Department from the Washington State Transportation Improvement Board (fuel tax) as well as from City of Black Diamond funds. If you would like more information on this project, please contact Scott Hanis, Capital Project Manager, at 360-886-5713 or e-mail him at [shanis@blackdiamondwa.gov](mailto:shanis@blackdiamondwa.gov). Check on the City's website for more updates.

*Looking west on Roberts Drive from the east end of the project.*

*Sidewalk looking west from City Hall.*

*Looking west from Union Drive.*

Looking north on Union Drive – intersection transition improvements.
