

Help Support the Black Diamond Police K-9 Team

Officer Kris Chatterson and his four-legged partner (Sabre) have been working together as a team for the past three years. K-9 Sabre was taught how to locate Marijuana, Heroin, Methamphetamine, Powder Cocaine and Crack Cocaine. To date, as a team, Officer Chatterson and K-9 Sabre have over 3,000 finds of illegal drugs and drug paraphernalia.

The Black Diamond Police Department is able to maintain a full-time narcotic's detection K-9 team largely because of donations from citizens and organizations. These funds are vital to the program and pay for food, veterinary services, equipment and training. The Black Diamond Police Department's K-9 Unit plays an important role in law enforcement. For example, many drug related crimes would go unnoticed if it were not for the dog's unique ability to locate concealed drugs. K-9 Sabre has found numerous amounts of illegal drugs over the past three years that has ultimately led to the successful prosecution of drug users and traffickers. K-9 Sabre and Officer Chatterson also conduct K-9 demonstrations for churches, schools, community organizations and special events. A large part of the K-9 Unit's mission is

to educate the public on illegal drugs and the consequences of using and selling such drugs.

The Black Diamond Police Department K-9 program is dependent on donations from citizens and organizations. The Black Diamond Police Department wants you to know how valuable our K-9 Unit is and we are asking for your support.
